

Council members

Hedayat Abdel Ghaffar (Egypt)
Nora Abrous (France)
Abdelhamid Benazzouz (France)
Hagai Bergman (Israel)
Thomas Boraud (France)
Driss Boussaoud (France)
Fatiha Chigr (Morocco)
Gustavo Deco (Spain)
Marc Landry (France)
Olivier Manzoni (France)
Marie Moftah (Egypt)
Mohamed Najimi (Morocco)
Paul Pévet (France)
Yasin Temel (Netherlands/Turkey)

Executive bureau

Driss Boussaoud (President)
Marie Moftah (Vice-President)
Nora Abrous (Secretary General)
Paul Pévet (Vice-Secretary General)
Abdelhamid Benazzouz (Treasurer)
Yasin Temel (Vice-Treasurer)

Why create a MNS?

Research on brain function in health and disease is among the priorities for today's societies, and several indicators put the mediterranean research area among strategic issues for the European Union (EU). Many South-North collaborations and networks have emerged in recent years through bilateral and multi-lateral actions, supported by the EU or by international and national actions, whether for setting up teaching curricula (Tempus programs), or by building human potential (FP7 programs). The MNS is created to support and help strengthen all initiatives that bring together mediterranean neuroscientists.

The last Mediterranean Conference of Neuroscience was organized in December 2009, in Alexandria (Egypt), after two previous successful editions (Montpellier 1997; Marrakech 2006). These conferences gathered scientists from all mediterranean countries and offered a rich program with lectures, symposia poster sessions and social events. These meetings have proved to be highly beneficial, not only for the scientific exchanges, but also in terms of training opportunities for students and young researchers.

Objectives of the MNS

The MNS works towards three main objectives:

- Strengthen exchanges between mediterranean neuroscientists
- Promote education in the neurosciences and increase public awareness of progress made
- Sustain the Mediterranean Neuroscience Conference

To reach these objectives, the MNS's policy is to work in close cooperation with existing national and international Neuroscience Societies.

Join the MNS

(To be filled out and posted with payment to the address below)

Title: Pr Dr Mr Ms
First name:
Last name:
Affiliation (University, Institution):
Laboratory:
Address:
Phone number:
Fax number:
E-mail:

Section to which you wish to be affiliated (maximum 2 choices):

- Molecular and Cellular Neuroscience
- Neuroendocrinology
- Integrated and Clinical Neuroscience
- Cognitive, Computational and Theoretical Neuroscience

Annual fees:

- Regular Member 40 €
- Student member* 15 €
- Sponsor Member ≥ 100€

(* Copy of your student ID)

Payment by check to "Société Méditerranéenne de Neurosciences - MNS" accepted for French residents only. Bank transfer is to address to "Société Méditerranéenne de Neurosciences - MNS"
